Box No. IV Lack of unity of invention

1. In response to the invitation to restrict or pay additional fees the applicant has:
 - restricted the claims.
 - paid additional fees.
 - paid additional fees under protest.
 - neither restricted the claims nor paid additional fees.

2. This Authority found that the requirement of unity of invention is not complied with and chose, according to Rule 68.1, not to invite the applicant to restrict or pay additional fees.

3. This Authority considers that the requirement of unity of invention in accordance with Rules 13.1, 13.2 and 13.3 is:
 - complied with.
 - not complied with for the following reasons:

When the inventions of claims 1-24 are compared to the invention of claim 25, the common matter is calculation of a packet speed by using the difference between the packet arrival times". This common feature makes no contribution over the prior art as is disclosed in various documents and this common feature cannot be a special technical feature within the meaning of PCT Rule 13.2, second sentence.

Accordingly, there exists no feature common to claims 1-25.

Since there exists no other common feature which can be considered as a special technical feature within the meaning of PCT Rule 13.2, second sentence, no technical relationship within the meaning of PCT Rule 13 between the different inventions can be seen.

It should be noted that the inventions disclosed in claims 1-25 are divided into two groups of inventions: a group of inventions of claims 1-24 and a group of invention of claim 25.

4. Consequently, this report has been established in respect of the following parts of the international application:

- all parts.
- the parts relating to claims Nos. 1-24
